

find us!

After you enter the village take the second left just on the bend in the road (don't drive down the hill to the train crossing). Then take the second left up the dirt road and you will quickly see our large stone coloured Shed!

Parking: there is parking next to the office (two spaces against it and one parallel to those spaces blocking in the first two). If those places are taken there is more parking on the roads at each end of West View.

Please don't park in front of neighbours properties on West View, thanks.
